PROFILE

Final-year B.Tech Computer Science student and aspiring Software Developer with hands-on experience in **C#, ASP.NET Core MVC, Entity Framework Core, MySQL, SQL Server, and JavaScript**. Experienced in developing database-driven web applications with **role-based access control, authentication, CRUD operations, and secure user management**. AWS Certified Cloud Practitioner with a strong interest in **.NET development, backend technologies, and building reliable real-world software solutions**.

EDUCATION

BTech – Computer Science & Engineering,
Babu Banarasi Das Institute of Technology (2023 – 2027)

PROJECT EXPERIENCE

User Management System | ASP.NET Core MVC, C#, MySQL, Entity Framework Core

Status: Ongoing Project

- Developing a role-based **User Management System** using ASP.NET Core MVC, C#, Entity Framework Core, and MySQL with a **Database-First approach**.
- Implemented **Registration, Login, Logout, Profile Management**, and role-based access for **Super Admin, Admin, and User**.
- Built user administration features including **Add/Edit User, Active/Inactive Status, Soft Delete, Restore, Role, and Department Management**.
- Implemented security features such as **Password Hashing, Account Lockout, Security Questions, and Form Validation**.
- Working on **SMTP-based Email OTP Verification and Forgot Password** functionality to enhance account security.
- Designed **Role-Based Access Control (RBAC)** to provide different permissions and functionality based on user roles.
- **Asp.Net-MVC-Jwt-Auth-CURD** : <https://github.com/Vishvjeet2004/Asp.NET-MVC-Jwt-Auth-CRUD> :
Developed a secure ASP.NET Core MVC application with JWT Authentication, Role-Based Authorization, Product Management CRUD operations, Entity Framework Core, and SQL Server backend.
- **Tic-Toc-Toe-Game** : <https://github.com/Vishvjeet2004/Tic-Toc-Toe-Game-JS.git> :
A responsive Tic Tac Toe web game built using HTML, CSS, and JavaScript. It features turn-based gameplay, real-time winner detection, and reset functionality. This project demonstrates core concepts like DOM manipulation, event handling, and basic game logic in a clean user interface.

TECHNICAL SKILLS

- **Languages:** C#, JavaScript, SQL
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Frameworks & Technologies:** ASP.NET Core MVC, Entity Framework Core
- **Database:** MySQL, SQL Server
- **Authentication & Security:** Session-Based Authentication, Role-Based Authorization, Password Hashing, OTP Verification, SMTP Email Integration
- **Cloud:** AWS Cloud Practitioner
- **Tools:** GitHub, Visual Studio, Visual Studio Code, MySQL Workbench, SQL Server Management Studio (SSMS)
- **Concepts:** MVC Architecture, CRUD Operations, Database-First Approach, Entity Framework Core, Role-Based Access Control (RBAC), Soft Delete, Account Lockout, Form Validation
- **API & Authentication Knowledge:** JWT Authentication, REST API Basics

CERTIFICATE

- **AWS Certificate Cloud Practitioner** : [AWS Certified Cloud Practitioner - Credly](https://www.credly.com/certifications/vishvjeet2004-aws-certified-cloud-practitioner)

EXTRACURRICULAR ACTIVITIES

- Actively participated in college cultural events, contributing to event coordination and execution
- Managed event operations including team coordination and task distribution
- Collaborated with teams to handle crowd management and event organization
